Introduction

The Craft Council of BC (CCBC) presents The Earring Show, an annual exhibition that highlights contemporary jewellery design. The exhibition sheds light on the timeless connection between craft and culture, and how they influence each other. The event provides a novel opportunity for the public to engage with contemporary craft.

Over the ensuing years, the Earring Show morphed from an event that displayed 35 artists from around BC to an international event hosting over 100 artists from different countries around the world. In 2025, The Earring Show remains a hybrid event, displaying earring submissions both at the CCBC Gallery in Vancouver and online. An opening reception will be hosted on May 8th, 2025, at CCBC Gallery where winners will be announced.

For the Craft Council of BC, the intent of this event is to raise much needed funds to support material-based artists from across BC, while promoting the very evolving contemporary craft of works for the body.

All accepted works will be included in the online catalogue on the CCBC website, for sale on our Online Shop until August 31st, 2025, and for sale in the CCBC gallery from May 8th– 22nd, 2025.

Categories

One-Of-A-Kind: For unique, one-of-a-kind designs. One-Of-A-Kind category is for earrings that are unique in all aspects so there is only one of them. Artists are invited to submit 3 earrings that are unique in design.

Limited Edition: For artwork produced in a limited run. Limited Edition category is for earrings in which the design is replicated: the earrings in the series can be exactly the same or; they are the same design but in different colours or; sometimes they are the same design but in different materials. Artists are invited to submit three limited editions designs.

Emerging Artist: For artists currently enrolled in a craft-based program, or who have graduated from a craft program or started making within the last 2 years.

Image Requirements

It is important that the images submitted are of high quality because they will be used for:

- Jurying – acceptance into the exhibition will be used to determine which submission will part of the exhibition.
- Promotion/Sales – used for the online collection to sell the work as well as in our online promotional materials for the exhibition.

Thus, please review the photography requirement below CAREFULLY to make sure that your submission is in the correct format.

- Photographs submitted with your application will be used to select earrings that will be entered into the show and for the online collection used to sell the work, so it is important that the images submitted are of high quality.
- Please submit high resolution images of your work with the following dimensions: minimum 2048 x 2048 pixels, 1:1 crop (square), jpg or png files.
- Please do not enlarge/stretch your images to meet requirements as this distorts the images and renders them unusable for jurying or for sales.
- Please use a plain, solid white background. If the material is hard to see with a white background (clear surfaces, for example), use a neutral grey or black background.
- Provide 3 photos per piece: front, back and a detail of a special feature of your earrings. Different angles will help better inform the jury's decision.
- Files must be in jpg/jpeg/png format.

File Names

For logistical purposes, please name your files in this format based to the following example:

Last name, first name initial, piece identifier (name or descriptor), and the number of the image per piece:

About Us

The [Craft Council of British Columbia](#) (CCBC) is a charitable arts service organization. It supports all stages of artistic practice in the craft sector; and creates opportunities for artists to exhibit, sell, and produce art. It also provides a voice for artists and craft organizations and aids in the development of active communities around craft.

Since 1973, we have been making craft more significant in the cultural life of British Columbians and Canadians. Through our public gallery and social enterprise shop on Granville Island, we exhibit and interpret contemporary objects in ceramic, glass, fiber, metal and wood that honor innovation in art, craft and design and celebrate materials and processes.
